

Zakarpattia and Odeska Regions, Ukraine. Ukrainian Step by Step Foundation (2016)

This dataset includes data from 111 children from 6 education centers and schools in Zakarpattia and Odeska regions of Ukraine by the Ukrainian Step by Step Foundation. The average age of children was 5.7 years old. The data was collected to highlight differences in developmental outcomes between Roma and non-Roma children. The sample comprises 48 Romani children and 63 non-Roma children. Assessors underwent a 5-day IDELA training in London in June 2016.

Average learning and development scores in IDELA domains

Distribution of Total IDELA scores

On average, children scored 58% correct on the IDELA assessment. Scores were fairly high, with nearly half of all children getting 61% or more correct.
